

Case 00: saved observed-mesh projections before and after A acquisition

All saved vertices; identical before/after scales; no filtering, inferred surfaces or new outline evaluation

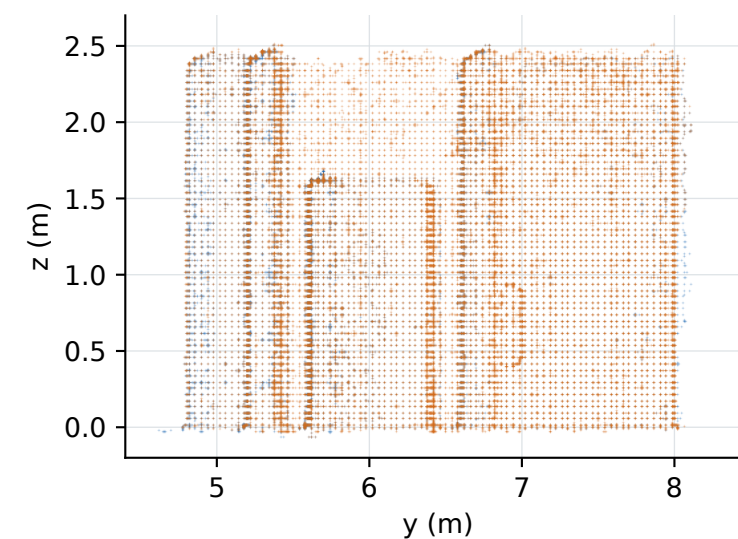

Slot 0 / A side (complex)
XY plan

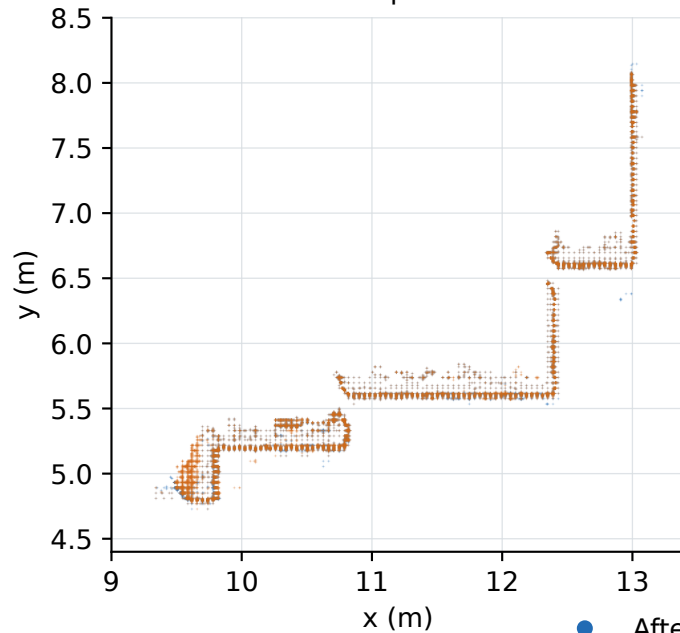

Slot 0 / A side (complex)
XZ elevation

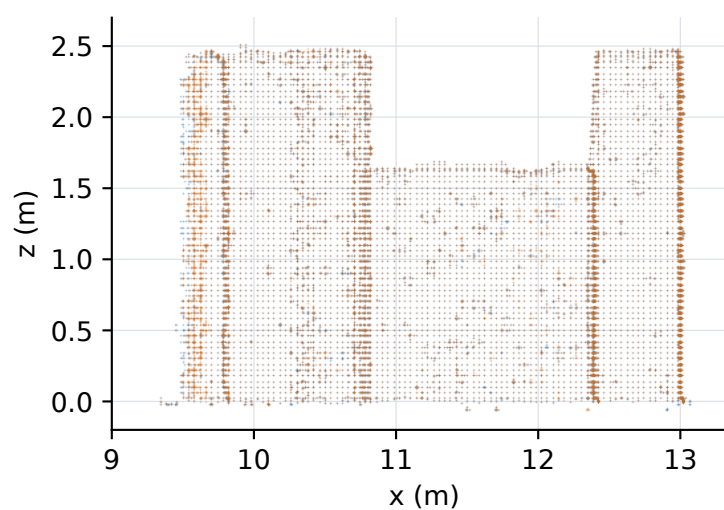

Slot 0 / A side (complex)
YZ elevation

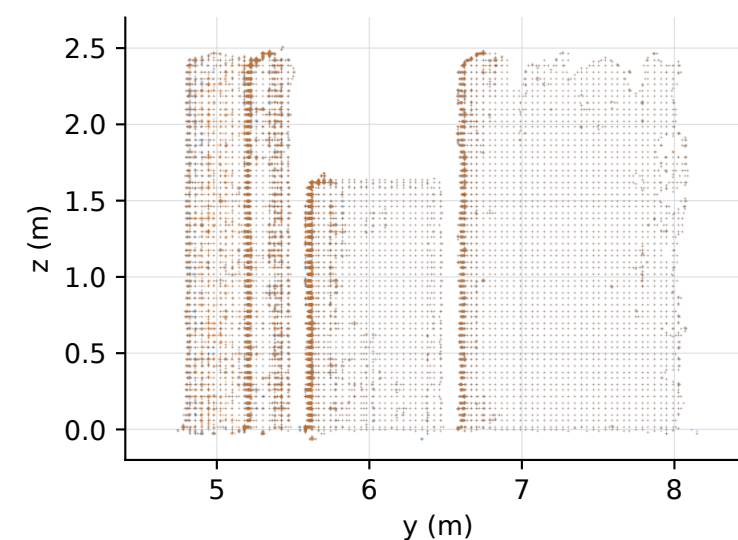

Slot 1 / B side (simple)
XY plan

Slot 1 / B side (simple)
XZ elevation

Slot 1 / B side (simple)
YZ elevation

● After common prefix: action 234 ● After A acquisition + return: action 354

Single completed fixed-route case only. Point projections are not the evaluator's filled exterior outlines and do not establish a failure cause.
