

Static cost of a close-front observation and return

3 development + 6 predesigned test layouts | Four devices remain in every task denominator

Paid actions: graph travel + one observation + full-pose return. Extra inspection is excluded.

	Equipment I1	Equipment I2	Equipment I3	Equipment I4
AISLE / development	21	49	67	91
AISLE / test 1	21	53	83	107
AISLE / test 2	51	59	75	83
CELL / development	21	49	137	99
CELL / test 1	43	127	67	97
CELL / test 2	21	49	89	121
LOOP / development	21	83	107	45
LOOP / test 1	21	61	99	45
LOOP / test 2	21	75	107	37

Orange outlines: cost exceeds 120 actions for that single close-front visit; this is not a task-failure label.

Conditional minima within certified close-front coarse poses, not global continuous optima or measured policy cost.
